

JS Project Details

Abstract:

Write JS code that creates a **Math Game**. 😊

Specifications:

- ✚ The game for students from Grade 1 to 5.
- ✚ Using Random function to create two numbers from 1 - 20
example: $5 + 7 = ??$ if the answer 12 from the user, play a Good Job sound and place an image to encourage the student.
- ✚ Take the student's name, give him/her 10 math problems, after she/he finishes, show the score.
- ✚ Add any necessary features you find to suit the game.

Proposed methodologies:

Using HTML, CSS and JS.
